NCEES announces 2010 approved calculator list

NCEES has approved the following list of calculators for use in the April and October 2010 exam administrations:

- Casio:** All **fx-115** models. Any Casio calculator must contain **fx-115** in its model name.
- Hewlett-Packard:** The **HP 33s** and **HP 35s** models, but no others
- Texas Instruments:** All **TI-30X** and **TI-36X** models. Any Texas Instruments calculator must contain either **TI-30X** or **TI-36X** in its model name.

Calculators not included within the above descriptions are not permitted in the exam room.

“This is our third year with this list,” said Tim Miller, P.E., director of exam services at NCEES. “Examinees, proctors, and state licensing boards have been happy with it, and NCEES felt that it continued to protect exam integrity while offering some flexibility.”

Candidates possessing unapproved calculators during the administration of an exam are subject to dismissal from the exam site. Examples of specific calculator models from the approved list and other exam-related information are available at www.ncees.org.

ABOUT NCEES

NCEES is a national nonprofit organization composed of engineering and surveying licensing boards representing all U.S. states, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands. An accredited standards developer with the American National Standards Institute, NCEES develops, scores, and administers the examinations used for engineering and surveying licensure throughout the United States. NCEES also provides services facilitating professional mobility for licensed engineers and surveyors. Its headquarters is located in Clemson, S.C.
